

FD TYPE CONNECTOR FOR RIBBON CABLE (1.27-millimeter pitch for standard ribbon cable)

General

The FD Series connectors are designed for ribbon cable IDC termination. Connecting wires are grouped, so the FD Series are useful for labor-saving in connection work and enhancing wiring reliability. Being compatible with 1.27-mm (standard) ribbon

cables, the FD Series are general-purpose, high-performance connectors that are capable of being interacting with connectors for other types of ribbon cables. 9, 15, 25 and 37-contact models available.

Features

- (1) Compact and sturdy due to metal shell.
- (2) Can be mounted on the front or back of a panel or chassis as necessary.
- (3) Fixes the cable securely by fixing the ribbon cable clamp with a metal plate in the connector.
- (4) Can be easily connected to a standard ribbon cable, having a cable IDC pitch of 1.27mm (standard).
- (5) Easy to connect cables by following the same IDC termination and connecting procedures as those for our other ribbon cable connectors.

Application

Most suitable for modems in communications equipment such as computers, peripherals and terminals, control equipment, and measuring instruments, and export equipment.

Electrical and Environmental

Electrical and Environmental Characteristics	
Current rating	1A
Voltage rating	200V AC
Insulation resistance	1,000M Ω min. at 500V DC
Contact resistance	25m Ω max. at 100mA DC
Withstand voltage	650Vr.m.s. AC for 1 minute

Material and Finish		
Shell	Steel	Nickel plating
Insulator	PBT (GE Valox)	Black
Contacts	Copper alloy	Nickel-plating + Gold plating
